

### **Moose University Online Now Available as a Member Benefit!**

Now any Moose Member can obtain access to the hundreds of courses that until now were only available to Administrators, Recorders and Secretaries. You can take any course from any Internet connection any time of any day!!

What a great way to improve your computer skills for your job or in preparation to hold an office. Think about giving the "gift of education" to your high school or college aged children or grandchildren.

There are even courses out there for your Lodge employees and volunteers that can reduce the Lodges' risk and improve Lodge safety - slips, trips and falls, kitchen safety, electrical safety and more!

**For under \$4 a month** you or a family member can have **unlimited** access to hundreds of courses for a full year. Simply go to the Education and Training web page in the Members Only section of [www.mooseintl.org](http://www.mooseintl.org) <<http://www.mooseintl.org>> for the link and access key that allows you to enroll and purchase courses. Happy Learning!!
